Bank of Japan

**ISO 20022 Messaging Standard for BOJ-NET Payment Messages
Upgraded to Version 8 (2019 Version)**

Effective today, the Bank of Japan Financial Network System (BOJ-NET) adopts version 8 (the 2019 version) of the ISO 20022 messaging standard for payment messages* in conducting relevant operations.

* The ISO 20022 messaging standard for payment messages is used by the BOJ-NET for foreign exchange yen settlements and current account transactions related to deposits of overseas institutions.
