Notes to the stock table:

(1) The amount outstanding of JGBs in the assets on the Bank's balance sheet. The figure for April 2001 is calculated by adding the amount outstanding of sales of JGBs to the government under repurchase agreements conducted in or before March 2001 to the amount outstanding of JGBs. JGBs held by the Bank are revalued at the end of the first half of every fiscal year and of the entire fiscal year. Until fiscal 2003, the value was stated at the lower of cost, determined by the moving-average method, or market value. From fiscal 2004, the value is stated at amortized cost, determined by the moving-average method. There is no continuity between figures through March 2001 and those from April 2001 due to changes in the Bank's accounting practice in April 2001 for transactions of government securities under repurchase agreements.

(2) The amount outstanding of JGBs purchased or acquired outright from financial institutions, including those rolled over at maturity and underwritten by the Bank. Calculated by subtracting the amount outstanding of government compensation bonds and other JGBs from that of JGBs held by the Bank. Figures approximately equal the accumulated amount of JGBs purchased or acquired outright from financial institutions minus the sum of redemptions, treasury bills (TBs) issued to roll over matured JGBs and underwritten by the Bank, and sales to the Government Debt Consolidation Fund.

(3) The amount outstanding of government compensation bonds and other JGBs. Stated at face value.

(4) The amount outstanding of JGBs sold to the government under repurchase agreements. Stated at sales-proceeds value.

(5) The amount outstanding of treasury discount bills (consisting of TBs and financing bills [FBs]) in the assets on the Bank's balance sheet. Figures for April and May 2001 are calculated by subtracting the amount outstanding of purchases of TBs and FBs under repurchase agreements conducted in or before March 2001 from that of treasury discount bills. The amount does not match the sum of the detailed items because of the difference in valuation. Treasury discount bills held by the Bank are revalued at the end of the first half of every fiscal year and of the entire fiscal year. Until fiscal 2003, the value was stated at cost determined by the moving-average method. From fiscal 2004, the value is stated at amortized cost, determined by the moving-average method. There is no continuity between figures through March 2001 and those from April 2001 due to changes in the Bank's accounting practice in April 2001 for transactions of government securities under repurchase agreements.

(6) The amount outstanding of FBs underwritten by the Bank and TBs issued to roll over JGBs and TBs and underwritten by the Bank. Figures equal the accumulated amount of these treasury discount bills, subtracting their redemption. Stated at face value.

(7) The amount outstanding of treasury discount bills purchased from financial institutions. Figures equal the accumulated amount of these treasury discount bills, subtracting principally their redemptions including those redeemed before maturity. Stated at acquisition cost.

(8) The amount outstanding of treasury discount bills sold to financial institutions. Figures equal the accumulated amount of these treasury discount bills, subtracting their redemption. Stated at sales-proceeds value.

(9) The amount outstanding of net sales of treasury discount bills to the government and others (i.e., the difference between the amount of treasury discount bills sold to and purchased from the government and others). Redeemed treasury discount bills are excluded. Stated at face value.

(10) The amount outstanding of treasury discount bills sold to foreign central banks and others under repurchase agreements. Stated at face value.

(11) The amount outstanding of JGSs (JGBs and treasury discount bills) purchased from financial institutions under repurchase agreements. Stated at acquisition cost. The amount outstanding through October 2002 is that of JGBs purchased from financial institutions under repurchase agreements, and thus there is no continuity between figures through October 2002 and those from November 2002.

(12) The amount outstanding of JGSs sold to financial institutions under repurchase agreements. Stated at sales-proceeds value.

(13) The amount outstanding of loans to financial institutions provided by funds-supplying operations against pooled collateral (loans that are made against pooled eligible collateral by way of open market operations with loan rates determined by multiple-rate competitive auctions or at a fixed rate determined by the Bank in advance).

(14) The amount outstanding of CP, dematerialized CP issued by domestic corporations, dematerialized CP issued by foreign corporations with guarantees, government-guaranteed dematerialized CP, dematerialized asset-backed CP, and dematerialized CP issued by real estate investment corporations purchased from financial institutions under repurchase agreements. Stated at face value.

(15) The amount outstanding of bills drawn by the Bank and sold to financial institutions. Stated at face value.

(16) The amount outstanding of loans to financial institutions in disaster areas with regard to the Great East Japan Earthquake provided by the funds-supplying operation to support financial institutions in disaster areas (loans that are made against pooled eligible collateral by way of open market operations within the maximum amount determined by the Bank at a fixed rate determined by the Bank in advance).

(17) The amount outstanding of loans to financial institutions under the fund-provisioning measure to support strengthening the foundations for economic growth (loans that are made against pooled eligible collateral at a fixed rate determined by the Bank in advance). From December 2012, figures are those of loans conducted through the Bank's Loan Support Program. From September 2011, figures include loans disbursed pursuant to the Special Rules for Equity Investments and Asset-Based Lending to Enhance the Fund-Provisioning Measure to Support Strengthening the Foundations for Economic Growth. From June 2012, figures include loans disbursed pursuant to the Special Rules for Small-Lot Investments and Loans to Enhance the Fund-Provisioning Measure to Support Strengthening the Foundations for Economic Growth. Figures do not include loans disbursed pursuant to the Special Rules for the U.S. Dollar Lending Arrangement to Enhance the Fund-Provisioning Measure to Support Strengthening the Foundations for Economic Growth. These loans are included in foreign currency assets constituting "Others."

- (18) The amount outstanding of loans to financial institutions under the fund-provisioning measure to stimulate bank lending (loans that are made against pooled eligible collateral at a fixed rate determined by the Bank in advance).
- (19) The amount outstanding of CP (excluding asset-backed CP and CP issued by real estate investment corporations), dematerialized CP issued by domestic corporations, CP issued by real estate investment corporations, dematerialized CP issued by real estate investment corporations, dematerialized CP issued by foreign corporations with guarantees, asset-backed CP, and dematerialized asset-backed CP purchased from financial institutions. Figures equal the accumulated amount of these securities, subtracting principally their redemptions. The value of securities is stated at amortized cost determined by the moving-average method and reflects changes due to revaluation for impairment losses at the end of March and September.
- (20) The amount outstanding of corporate bonds and bonds issued by real estate investment corporations purchased from financial institutions. Figures equal the accumulated amount of these corporate bonds, subtracting principally their redemptions. The value of securities is stated at amortized cost determined by the moving-average method and reflects changes due to revaluation for impairment losses at the end of March and September.
- (21) The amount outstanding of pecuniary trusts established to purchase ETFs. The value of ETFs is stated at cost determined by the moving-average method and reflects changes due to revaluation for impairment losses at the end of March and September.
- (22) The amount outstanding of pecuniary trusts established to purchase J-REITs. The value of J-REITs is stated at cost determined by the moving-average method and reflects changes due to revaluation for impairment losses at the end of March and September.
- (23) The amount outstanding of loans and bills discounted pursuant to Article 33 of the Bank of Japan Act and loans backed by loans on deeds pursuant to the proviso of Section 1, Article 43 of the Act. Includes loans under the temporary lending facility to support firms' financing activities for December 1998 through March 1999 and loans under the complementary lending facility from March 2001. Excludes loans to financial institutions provided by funds-supplying operations against pooled collateral, special funds-supplying operations to facilitate corporate financing, and the funds-supplying operation to support financial institutions in disaster areas. Also excludes loans under the fund-provisioning measure to support strengthening the foundations for economic growth and the fund-provisioning measure to stimulate bank lending.
- (24) The sum of items such as loans to the Deposit Insurance Corporation (DIC), capital subscriptions to the DIC and the Agricultural and Fishery Cooperative Savings Insurance Corporation, provision of funds to the DIC's Jusen account, and provision of funds to the New Financial Stabilization Fund.
- (25) The amount outstanding of loans to the DIC pursuant to the following: Article 42 and Supplementary Article 20 of the Deposit Insurance Act; Article 65 of the Act on Emergency Measures for the Revitalization of the Financial Functions; and Article 16 of the Act on Emergency Measures for Early Strengthening of Financial Functions.
- (26) The amount outstanding of securities lending to financial institutions as a secondary source of JGSs. Stated at sales-proceeds value.
- (27) The amount outstanding of pecuniary trusts established to purchase stocks from banks. The value of stocks is stated at the cost determined by the moving-average method and reflects changes due to revaluation for impairment losses at the end of March and September.
- (28) The amount outstanding of the treasury deposit, the domestic designated deposit, and other government deposits.
- (29) Includes the following items: gold, foreign currency assets, premises and movable property, coins in circulation, deposits held by foreign central banks and others, reserves for possible losses, capital accounts, and deposits with agents, in addition to purchase of foreign securities from the Foreign Exchange Fund Special Account with resale agreement for January through May 2004.
- (30) The amount outstanding of current deposits held by financial institutions subject to reserve requirements. The amount outstanding of current deposits held by financial institutions subject to reserve requirements and the Japan Post for April 2003 through September 2007.
- * Figures for March and September released in early April and October are preliminary. Final figures are released in early June and December, respectively.
