Notes: 1. Figures in the table, except for the column "Row code," denote input values in million yen. They are obtained from one of the I-O Tables, which is the table by basic sector classification at purchaser's prices.

2. Numbers in column "Row code" denote the row code numbers of basic sector classification in the I-O Tables.

3. Item titles in column "Basic sector classification" denote the item names of basic sector classification in the I-O Tables. They correspond to the classification level "commodity group" of the IOPI.

The items in the table are categorized based on the classification of the IOPI.

4. n.e.c. denotes not elsewhere classified.

Notes: 1. Figures in the table, except for the column "Row code," denote input values in million yen. They are obtained from one of the I-O Tables, which is the table by basic sector classification at purchaser's prices.

2. Numbers in column "Row code" denote the row code numbers of basic sector classification in the I-O Tables.

3. Item titles in column "Basic sector classification" denote the item names of basic sector classification in the I-O Tables. They correspond to the classification level "commodity group" of the IOPI.

The items in the table are categorized based on the classification of the IOPI.

4. n.e.c. denotes not elsewhere classified.

Notes: 1. Figures in column "Output values" denote output values of each category in million yen. They are obtained from one of the I-O Tables, which is the supplementary table for scrap, waste, and by-products.

2. Numbers in column "Column code" denote the column code numbers of basic sector classification in the I-O Tables.

3. Numbers in column "Row code" denote the row code numbers of basic sector classification in the I-O Tables.

4. Item titles in column "Output sector" denote the title names of column code of basic sector classification in the I-O Tables.

They are the sector which produce scrap, waste, and by-products.

5. Item titles in column "Scrap, waste, and by-products" denote the title names of row code of basic sector classification in the I-O Tables, which corresponds to the output; scrap, waste, and by-products.

6. n.e.c. denotes not elsewhere classified.
