Revision of the Industry Classification of the Short-term Economic Survey of Enterprises in Japan (TANKAN survey)

Introduction

The industry classification of TANKAN survey is following the "Japan Standard Industrial Classification". With the revision of the "Japan Standard Industrial Classification" released in November 2007, and applied in April 1, 2008, some industry classifications of TANKAN survey will be revised from the March 2010 survey as explained below. Please see the appendixes 1-3 showing the details.

1. Revision of the Industry Classification of TANKAN survey

The five major changes are (1) the establishment of "General-purpose machinery", "Production machinery" and "Business oriented machinery", (2) the establishment of "Real estate, Goods rental & Leasing", (3) the establishment of "Transport & Postal activities", (4) the reorganization of "Services for businesses" and "Services for individuals", (5) the rename of "Restaurant & Accommodations" and "Mining".

(1) The establishment of "General-purpose machinery", "Production machinery" and "Business oriented machinery"

The revised "Japan Standard Industrial Classification" reorganized "Manufacture of general machinery" and "Manufacture of precision instruments and machinery" and so forth, and newly created "Manufacture of General-purpose machinery", "Manufacture of Production machinery" and "Manufacture of Business oriented machinery". Following this revision, TANKAN survey will also reorganize the industry classification (Appendix 2).

Additionally, TANKAN survey will release "General-purpose, Production & Business oriented machinery" including the newly created three industry classifications.

(2) The establishment of "Real estate, Goods rental & Leasing"

The revised "Japan Standard Industrial Classification" newly created "Real estate and goods rental and leasing" by combining "Real estate" with "Goods rental and leasing" included in "Services, N.E.C.". In response, TANKAN survey will also establish "Real estate, Goods rental & Leasing". "Goods rental & Leasing" in "Real estate, Goods rental & Leasing" will be the industry classification unifying "Leasing" of the current TANKAN survey, "Automobile rental" included in "Services for businesses", and "Sports and hobby goods rental" and "Miscellaneous goods rental and leasing" included in "Services for individuals".

"Real estate, Goods rental & Leasing" will break down into two items ("Real estate" and "Goods rental & Leasing") and be released. TANKAN survey will abolish "Construction & Real estate" due to the establishment of "Real estate, Goods rental & Leasing".

(3) The establishment of "Transport & Postal activities"

The revised "Japan Standard Industrial Classification" newly created "Transport and postal activities" by combining "Transport" with "Transmission of correspondence" included in "Information and Communications". Following this revision, TANKAN survey will also establish "Transport & Postal activities". "Transport & Postal activities" will be the industry classification unifying "Transportation" of current TANKAN survey and "Transmission of correspondence" included in "Communications".

(4) The reorganization of "Services for businesses" and "Services for individuals"

The revised "Japan Standard Industrial Classification" newly created "Scientific research, professional and technical services" and "Living-related and personal services and amusement services". TANKAN survey will also reorganize some industry classifications following the revision; "Scientific research, professional and technical services" and "Technical services, N.E.C" will be classified as "Services for businesses", and "Living-related and personal services and amusement services", "Education, learning support" and "Medical, health care and welfare" will be classified as "Services for individuals" (Appendix 3). TANKAN survey will abolish "Services" combining "Services for businesses" with "Services for individuals".

(5) The rename of "Restaurant & Accommodations" and "Mining"

The revised "Japan Standard Industrial Classification" renamed "Eating and drinking places, accommodations" into "Accommodations, eating and drinking services", and "Mining" into "Mining and quarrying of stone and gravel" respectively. Following this revision, TANKAN survey will also rename two classifications into "Accommodations, Eating & Drinking services" and "Mining & Quarrying of stone and gravel".

2. Revision of the Industry Classification of Surveys on Financial Institutions

The revised "Japan Standard Industrial Classification" abolished "Securities brokers and dealers" included in "Finance and insurance", and newly created "Financial products transaction dealers". Also, "Financial products transaction dealers" contained "Investment businesses" classified in "Non-deposit money corporations engaged in the provision of finance, credit and investment" in the pre-revised classification. Following this revision, the current surveys on financial institutions will also be revised; "Securities companies" will be "Financial products transaction dealers" by combining with "Investment businesses", and "Non-deposit money corporations" will be reorganized by excluding "Investment businesses".
