3. These indexes are classified by stage of demand and use. Commodities of "Domestic Corporate Goods Price Index" and "Import Price Index" are classed as "Domestic demand products." Commodities used and consumed for production are defined as "Raw materials" (unprocessed materials) and "Intermediate materials" (processed materials), and those for final demand users as "Final goods." Indexes classified by stage of use are the subdivisions of those classified by stage of demand. Commodities of "Export Price Index" are classed as "Exports." Indexes for "Exports" are classified only by stage of use, but they are not included here.
