

## **[VII] The Committee's Commitment to External Communication**

### **1. The Committee's Communication Engagements since the Fifth Meeting**

Since the fifth meeting held on January 18, 2019, the Committee has been making various efforts to raise awareness of the Committee's activities such as the Committee's chair appearing as a speaker in the lecture hosted by Japan Syndication and Loan-trading Association (JSLA) and releasing documents distributed to the Committee's participants on the Bank of Japan's website.

### **2. Way Forward**

As the Committee intends to conduct a public consultation by the middle of this year, the Committee will make further efforts to facilitate awareness of the Committee's work on benchmark reform, including the risk relating to the permanent discontinuation of JPY LIBOR.
