Regional Economic Report (Summary) October 2023

Bank of Japan

This report summarizes the reports from all regional research divisions, mainly at the Bank's branches in Japan, and is based on data and other information gathered for the meeting of general managers of the Bank's branches held today. The English translation is based on the Japanese original.

I. Regional Economic Assessments (Overview)

All nine regions reported that their respective economies, despite being affected by a slowdown in the pace of recovery in overseas economies and by price rises, had been either picking up or recovering moderately.

Comparison of Previous and Current Assessments by Region

Region	Assessment in July 2023	Changes from the previous assessment ¹	Assessment in October 2023
Hokkaido	The economy has been picking up moderately.		The economy has been picking up.
Tohoku	The economy has been picking up moderately as a trend, although weakness has been seen in part.		The economy has been picking up.
Hokuriku	The economy has been picking up.		The economy has been recovering moderately.
Kanto-Koshinetsu	The economy has been picking up.		The economy has been recovering moderately.
Tokai	The economy has been picking up.		The economy has been picking up.
Kinki	The economy has been picking up, although some weakness has been seen in part.		The economy has been picking up, although some weakness has been seen in part.
Chugoku	The economy has been picking up.		The economy has been recovering moderately.
Shikoku	The economy has been picking up moderately.		The economy has been picking up.

¹ With regard to the changes from the previous assessment, arrows pointing to the upper right or lower right indicate changes in the pace of improvement or deterioration compared with the previous assessments, respectively. For example, an acceleration in the pace of improvement or deceleration in the pace of deterioration is indicated with an arrow pointing to the upper right. A horizontal arrow pointing to the right indicates that the pace of improvement or deterioration in economic conditions is unchanged compared with the previous assessment.

Kyushu-Okinawa	The economy has been recovering moderately.		The economy has been recovering moderately.
----------------	---	---	---

II. Assessments of Components by Region

Region	Public investment	Business fixed investment	Private consumption
Hokkaido	Increasing	Picking up moderately	Increasing steadily, despite being affected by price rises
Tohoku	Has stopped declining due to construction related to building national resilience as well as to restoration following natural disasters	Increasing	Recovering
Hokuriku	Has been relatively weak	Increasing	Recovering moderately, despite being affected by price rises
Kanto-Koshinetsu	Picking up	Increasing moderately	Increasing steadily at a moderate pace, partly supported by inbound tourism demand, despite being affected by price rises
Tokai	Has been at a relatively high level	Increasing	Picking up moderately
Kinki	Increasing	Increasing	Increasing moderately
Chugoku	Has been at a high level	Increasing moderately	Recovering moderately

Shikoku	Picking up	Has been firm	Picking up steadily, despite being affected by price rises
Kyushu-Okinawa	Has been at a high level	Increasing	Recovering

Region	Housing investment	Production	Employment and income
Hokkaido	Declining	Has been more or less flat, but some weakness has been seen in part	The employment and income situation has been improving moderately
Tohoku	Has been weak	The pick-up has been sluggish	The employment and income situation has been improving
Hokuriku	Declining	Weakening	The employment and income situation has been picking up steadily
Kanto-Koshinetsu	Has been relatively weak	Has been more or less flat as the effects of supply-side constraints have waned, despite being affected by a slowdown in the pace of recovery in overseas economies	The employment and income situation has been improving moderately
Tokai	Has been weak	Picking up	The employment and income situation has been improving moderately
Kinki	Has been more or less flat	Has been more or less flat	The employment and income situation has been improving moderately

Chugoku	Has been more or less flat	Has been on a pick-up trend, albeit a moderate one	The employment and income situation has been improving moderately on the whole
Shikoku	Has been relatively weak	Has been more or less flat	The employment and income situation has been improving moderately
Kyushu-Okinawa	Has been more or less flat	Has been more or less flat	The employment and income situation has been improving moderately

Appendix: Prefectures Included in Each Region

Region	Prefectures
Hokkaido	Hokkaido
Tohoku	Aomori, Iwate, Miyagi, Akita, Yamagata, and Fukushima
