Macroprudential Policy and Initiatives by the Bank of Japan

Speech at Japan Society in London

November 12, 2014
Takehiro Sato
Bank of Japan

Outline

Introduction

I. Issues Involved in Implementing Macroprudential Measures

II. The Bank's Initiatives on the Macroprudential Front

III. The Relation between Monetary Policy and Macroprudential Policy

IV. The Bank's Recent Conduct of Monetary Policy
### Types of Macroprudential Policy Measures

<table>
<thead>
<tr>
<th>Type of instrument</th>
<th>Examples</th>
</tr>
</thead>
<tbody>
<tr>
<td>Limits calibrated to borrower risk characteristics</td>
<td>Loan-to-value caps, debt-to-income limits, limits on foreign currency lending</td>
</tr>
<tr>
<td>Absolute limits</td>
<td>Aggregate or sectoral credit growth ceilings, limits on exposure by instrument</td>
</tr>
<tr>
<td>Limits on leverage</td>
<td>Size-dependent leverage limits or asset risk weights</td>
</tr>
<tr>
<td>Limits on financial system concentration</td>
<td>Limits on interbank exposures</td>
</tr>
<tr>
<td>Capital</td>
<td>Time-varying capital requirements</td>
</tr>
<tr>
<td>Provisioning</td>
<td>Countercyclical/dynamic provisioning</td>
</tr>
<tr>
<td>Liquidity risk</td>
<td>Loan-to-deposit limits, core funding ratios, reserve requirements</td>
</tr>
<tr>
<td>Currency risk</td>
<td>Limits on open currency positions or on derivatives transactions</td>
</tr>
</tbody>
</table>

### Issues Involved in Implementing Macroprudential Measures

1. Implementation of effective measures with appropriate timing
2. Communication to the public at the time of policy implementation
3. Prevention of leakage of policy effects
## Heat Map of Financial Activity Indexes

Bank of Japan Act

Article 1

(1) The purpose of the Bank of Japan, or the central bank of Japan, is to issue banknotes and to carry out currency and monetary control.

(2) In addition to what is prescribed in the preceding paragraph, the Bank of Japan's purpose is to ensure smooth settlement of funds among banks and other financial institutions, thereby contributing to the maintenance of stability of the financial system.

Article 2

Currency and monetary control by the Bank of Japan shall be aimed at achieving price stability, thereby contributing to the sound development of the national economy.
Expansion of the Quantitative and Qualitative Monetary Easing (QQE)

- Accelerating the annual pace of increase in the monetary base from about 60-70 trillion yen to about 80 trillion yen.

- Increasing the annual pace of the Bank's JGB holdings from about 50 trillion yen to about 80 trillion yen.

- Extending the average remaining maturity of JGB purchases from about 7 years to about 7-10 years.

- Increasing the Bank's holdings of ETFs and J-REITs so that the annual paces of increase are tripled to about 3 trillion yen and about 90 billion yen, respectively.
