Notes: 1. Based on the records of investment or lending that were submitted to the Bank during October 3-20, 2011 for the sixth new loan disbursement and the second new loan disbursement under the fund-provisioning measure and were confirmed by the Bank that investment or lending was carried out under their plans to support strengthening the foundations for economic growth. Given that the funds under the measure will be provided based on the amount requested within the records of investment or lending, the amount of loans to be provided does not necessarily equal the total amount of actual investment or lending.

The areas for strengthening the foundations for economic growth listed in the table are based on the 18 areas listed in the Annex of the Principal Terms and Conditions for the Fund-Provisioning Measure to Support Strengthening the Foundations for Economic Growth. Furthermore, the items of special rules for equity investments and asset-based lending to enhance the fund-provisioning measure to support strengthening the foundations for economic growth in the table are limited to equity investments.

2. Based on the records of investment or lending that were submitted to the Bank during October 3-20, 2011 for the second new loan disbursement under the fund-provisioning measure and were confirmed by the Bank that investment or lending was carried out under their plans to support strengthening the foundations for economic growth (this item is limited to asset based lending).
3. Based on the records of investment or lending that were submitted to the Bank for the 1st-6th new loan disbursement and the second new loan disbursement under the fund-provisioning measure and were confirmed by the Bank that investment or lending was carried out under their plans. The investment or lending amount does not reflect reduction due to bullet prepayment or scheduled repayment.
4. The number of financial institutions that submitted their plans to support strengthening the foundations for economic growth to the Bank during June 18, 2010-October 11, 2011, and obtained the Bank's confirmation that their plans satisfied the conditions for the fund-provisioning measure, thereby being granted to participate in the sixth new loan disbursement under the fund-provisioning measure.
5. The number of financial institutions that submitted their plans to support strengthening the foundations for economic growth for asset based lending to the Bank during June 20, 2011-October 11, 2011, and obtained the Bank's confirmation that their plans satisfied the conditions for the fund-provisioning measure, thereby being granted to submit the records of asset based lending in the second new loan disbursement under the fund-provisioning measure.
6. The number of financial institutions whose plans, submitted during June 18, 2010- October 11, 2011, were confirmed by the Bank that their plans satisfied the conditions for the fund-provisioning measure, and that chose the business areas in the list as the areas in which their efforts may support strengthening the foundations for economic growth.

The areas for strengthening the foundations for economic growth in the list are based on the 18 areas listed in the Annex of the Principal Terms and Conditions for the Fund-Provisioning Measure to Support Strengthening the Foundations for Economic Growth. Given that some financial institutions chose multiple business areas, the total number of financial institutions does not necessarily equal the number of financial institutions whose plans were confirmed by the Bank.
