Review of the Benchmark Ratio Used to Calculate the Macro Add-on
Balance in Current Account Balances at the Bank of Japan

The Bank of Japan decided to review the Benchmark Ratio (Note) used to calculate
the Macro Add-on Balance in financial institutions' current account balances at
the Bank, to which a zero interest rate is applied, as follows.

Note: The Benchmark Ratio stipulated in Paragraph 4. (3) (a) of the "Principal Terms and
Conditions of Complementary Deposit Facility."

During the June 2020 reserve maintenance period: 28.5%

The Policy-Rate Balance in financial institutions' current account balances at the
Bank, to which a negative interest rate is applied, will be about 5 trillion yen if
arbitrage transactions take place in full among financial institutions.

The Benchmark Ratio during the July 2020 reserve maintenance period will be
announced on July 9, 2020 at 5 p.m.
