# Regional Economic Report (Summary) January 2023

# Bank of Japan

This report summarizes the reports from all regional research divisions, mainly at the Bank's branches in Japan, and is based on data and other information gathered for the meeting of general managers of the Bank's branches held today. The English translation is based on the Japanese original.

### I. Regional Economic Assessments (Overview)

According to assessments from regions across Japan, many of them reported that their respective economies, despite being affected by factors such as high commodity prices, had been picking up or had been picking up moderately, as the effects of supply-side constraints had waned and as the resumption of economic activity had progressed while public health had been protected from the novel coronavirus (COVID-19).

### Comparison of Previous and Current Assessments by Region

| Region               | Assessment in October 2022   | Changes from<br>the previous<br>assessment <sup>1</sup>   | Assessment in January 2023   |
|----------------------|--|---|--|
| Hokkaido             | The economy has been picking up moderately.  | $\qquad \qquad $ | The economy has been picking up moderately.  |
| Tohoku               | The economy has been picking up moderately.  | $\bigcirc$  | The economy has been picking up moderately.  |
| Hokuriku             | The economy has picked up as a trend.  | $\searrow$  | The economy has been picking up.   |
| Kanto-<br>Koshinetsu | The economy has picked up as a trend, as the resumption of economic activity has progressed while public health has been protected from COVID-19 and as the effects of supply-side constraints have waned. | $\nabla$  | The economy has been picking up, as the resumption of economic activity has progressed while public health has been protected from COVID-19. |
| Tokai                | The economy has seen a pause in signs of a pick-up.  | $\Rightarrow$   | The economy has been more or less flat.  |
| Kinki                | The economy has been picking up on the whole, with the impact of COVID-19 waning.  | abla  | The economy has been picking up, as the resumption of economic activity has progressed while public health has been protected from COVID-19. |

<sup>1</sup>X

<sup>&</sup>lt;sup>1</sup> With regard to the changes from the previous assessment, arrows pointing to the upper right or lower right indicate changes in the pace of improvement or deterioration compared with the previous assessments, respectively. For example, an acceleration in the pace of improvement or deceleration in the pace of deterioration is indicated with an arrow pointing to the upper right. A horizontal arrow pointing to the right indicates that the pace of improvement or deterioration in economic conditions is unchanged compared with the previous assessment.

| Chugoku            | The economy has been picking up moderately.   | $\qquad \qquad $ | The economy has been picking up moderately. |
|--------------------|---|---|---|
| Shikoku            | The economy has been picking up moderately on the whole while the effects of supply-side constraints have remained in some sectors. | $\bigcirc$  | The economy has been picking up moderately. |
| Kyushu-<br>Okinawa | The economy has been picking up moderately.   | $\searrow$  | The economy has been picking up.            |

# II. Assessments of Components by Region

| Region               | Public investment   | Business fixed investment | Private consumption  |
|----------------------|---|---------------------------|--|
| Hokkaido             | Has been relatively weak, despite being at a high level   | Picking up moderately     | Picking up moderately  |
| Tohoku               | Has stopped declining due<br>to construction related to<br>building national resilience<br>as well as to restoration<br>following natural disasters | Increasing                | Picking up broadly, with the impact of COVID-19 and other factors waning |
| Hokuriku             | Has been relatively weak  | Increasing                | Picking up   |
| Kanto-<br>Koshinetsu | Has been weak   | Picking up on the whole   | Picking up, despite being affected by COVID-19                           |
| Tokai                | Has been at a relatively high level   | Increasing moderately     | Picking up on the whole,<br>although weakness has been<br>seen in part   |

| Kinki              | Has been at a high level   | Increasing              | Increasing moderately on<br>the whole, as the<br>resumption of economic<br>activity has progressed<br>while public health has been<br>protected from COVID-19 |
|--------------------|----------------------------|-------------------------|---|
| Chugoku            | Has been at a high level   | Picking up moderately   | Has started to pick up  |
| Shikoku            | Has been more or less flat | Has been firm           | Picking up moderately   |
| Kyushu-<br>Okinawa | Has been at a high level   | Increasing on the whole | Picking up  |

| Region               | Housing investment       | Production  | Employment and income   |
|----------------------|--------------------------|---|---|
| Hokkaido             | Declining                | Has been more or less flat  | The employment and income situation has been improving moderately, although some weakness has been seen in part |
| Tohoku               | Has been relatively weak | Has generally been on a pick-up trend, although weakness has been seen in part            | The employment and income situation has been improving  |
| Hokuriku             | Has shown some weakness  | Has seen a pause in signs of a pick-up  | The employment and income situation has been picking up moderately  |
| Kanto-<br>Koshinetsu | Has started to pick up   | Has continued to increase as a trend as the effects of supply-side constraints have waned | The employment and income situation has been improving moderately on the whole                                  |

| Tokai              | Has been weak  | Has been stagnant  | The employment and income situation has been improving moderately  |
|--------------------|--|--|--|
| Kinki              | Has been more or less flat                                     | Has continued to increase moderately as a trend, but some weakness has been seen in part | The employment and income situation has been improving moderately on the whole                                   |
| Chugoku            | Picking up, primarily in housing for rent and housing for sale | Picking up as the effects of supply-side constraints have waned                          | The employment and income situation has been improving moderately on the whole                                   |
| Shikoku            | Has been relatively weak                                       | Picking up on the whole,<br>although some weakness<br>has been seen in part              | Labor market conditions have been improving moderately and household income has begun to head toward improvement |
| Kyushu-<br>Okinawa | Has been more or less flat                                     | Picking up   | The employment and income situation has been improving moderately on the whole                                   |

## **Appendix: Prefectures Included in Each Region**

| Region           | Prefectures   |  |
|------------------|---|--|
| Hokkaido         | Hokkaido  |  |
| Tohoku           | Aomori, Iwate, Miyagi, Akita, Yamagata, and Fukushima         |  |
| Hokuriku         | Toyama, Ishikawa, and Fukui                                   |  |
| Kanto-Koshinetsu | Ibaraki, Tochigi, Gunma, Saitama, Chiba, Tokyo, Kanagawa,     |  |
|                  | Niigata, Yamanashi, and Nagano                                |  |
| Tokai            | Gifu, Shizuoka, Aichi, and Mie                                |  |
| Kinki            | Shiga, Kyoto, Osaka, Hyogo, Nara, and Wakayama                |  |
| Chugoku          | Tottori, Shimane, Okayama, Hiroshima, and Yamaguchi           |  |
| Shikoku          | Tokushima, Kagawa, Ehime, and Kochi                           |  |
| Kyushu-Okinawa   | Fukuoka, Saga, Nagasaki, Kumamoto, Oita, Miyazaki, Kagoshima, |  |
|                  | and Okinawa   |  |
