2. Numbers in the "Row code" column denote the basic sector classification row code numbers from the I-O Tables.

3. The "Basic sector classification" column gives the titles of basic sectors according to the classification used in the I-O Tables. They correspond to the IOPI "commodity group" classification level.

The items in the table are categorized based on their IOPI classifications.

4. n.e.c. denotes not elsewhere classified.

Notes: 1. Figures in the table, except for the column "Row code," denote input values in millions of yen. They are obtained from one of the I-O Tables, which is the table by basic sector classification valued at purchaser's prices.

2. Numbers in the "Row code" column denote the basic sector classification row code numbers from the I-O Tables.

3. The "Basic sector classification" column gives the titles of basic sectors according to the classification used in the I-O Tables. They correspond to the IOPI "commodity group" classification level.

The items in the table are categorized based on their IOPI classifications.

4. n.e.c. denotes not elsewhere classified.
