Notes: 1. When a commodity corresponds to plural commodity groups, they are counted as different commodities. Also, when a domestic product and an imported/exported product share the same commodity name within a single commodity group, they are counted as two commodities.

2. The "Transferred from the WPI" column denotes the number of commodities which were transferred from the 1995 base Wholesale Price Index (from the January 2000 index to the November 2002 index). The "Transferred from the CGPI" column denotes the number of commodities which were transferred from the 2000 base Corporate Goods Price Index (from the December 2002 index).
