- (Note) 1 . Changes due to the abolition of additional price collection caused by the change in price collection method of the IOPI.
 2 . Changes due to the abolition of adoption of substitutional price data caused by the change in price collection method of the IOPI.
 3 . Changes caused by the change in price collection method of the IOPI, besides those mentioned above.
 4 . Net increase in the number of commodities which are adopted by plural commodity groups in the IOPI.
 5 . Changes in the number of commodities in scrap, waste, and by-products.
