## Explanation of the "(Reference) Current Account Balances Subject to the Complementary Deposit Facility"

## in the "BOJ Current Account Balances by Sector"

(applicable from the May 2016 reserve maintenance period onwards)
Step 1: Assume the following financial institutions $A, B, C$, and $D$ in sector $X$ :

| Institution | Benchmark $^{\text {Balances }}{ }^{\text {a }}$ | Required <br> Reserves $^{\mathrm{b}}$ | Loan Support <br> Program, etc. <br> $($ end of 2016/3) | Loan Support <br> Program, etc. ${ }^{d}$ | Benchmark Ratio | Benchmark Balances $*$ <br> Benchmark Ratio | Current <br> Account <br> Balances |
| :---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| A | 40 | 2 | 15 | 10 | $7.5 \%$ | $40 \times 0.075=3$ | 100 |
| B | 80 | 2 | 10 | 10 | $7.5 \%$ | $80 \times 0.075=6$ | 90 |
| C | 120 | 2 | 10 | 10 | $7.5 \%$ | $120 \times 0.075=9$ | 30 |
| D | 120 | 2 | 5 | 10 | $7.5 \%$ | $120 \times 0.075=9$ | 30 |

[a] Average current account balances during the reserve maintenance period from 2015/1-12.
[b] Required reserve per day during the reserve maintenance period of month $T$ on year $Y$.
[c] Amount of the sum of yen-denominated loans under the "Loan Support Program" and the
"Funds-Supplying Operation to Support Financial Institutions in Disaster Areas" at the end of March 2016.
[d] Average amount of the sum of yen-denominated loans under the "Loan Support Program," the
"Funds-Supplying Operation to Support Financial Institutions in Disaster Areas" and the "Funds-Supplying Operation to Support Financial Institutions in Disaster Areas of the Kumamoto Earthquake" during the reserve maintenance period of month T on year Y .
[e] Average current account balances during the reserve maintenance period of month T on year Y .
Step 2: The balances to which different interest rates are applied are as follows:

| Institution | Balances to which a positive interest rate is applied |  | Balances to which a zero interest rate is applied |  | Balances to which negative interest rate is applied |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Upper bound | Actual amount | Upper bound | Actual amount |  |
| A | $40-2=38$ | $\begin{aligned} 100-2=98 & >38 \\ & \Rightarrow 38 \end{aligned}$ | $\stackrel{[b]}{2}+10+\stackrel{*}{0}+\stackrel{* *}{3}=15$ | $\begin{aligned} 100-38=62 & >15 \\ & \Rightarrow 15 \end{aligned}$ | 100-38-15 = 47 |
| B | $80-2=78$ | $\begin{aligned} \hline 90-2=88 & >78 \\ & \Rightarrow 78 \end{aligned}$ | $2+10+0+6=18$ | $\begin{aligned} 90-78=12 & <18 \\ & \Rightarrow 12 \end{aligned}$ | $90-78-12=0$ |
| C | 120-2 = 118 | $\begin{aligned} 30-2=28 & <118 \\ & \Rightarrow 28 \end{aligned}$ | $2+10+0+9=21$ | 30-28=2 ${ }^{2} \stackrel{21}{\Rightarrow} 2$ | $30-28-2=0$ |
| D | 120-2 = 118 | $\begin{aligned} 30-2=28 & <118 \\ & \Rightarrow 28 \end{aligned}$ | $2+10+5+9=26$ | $\begin{aligned} & 30-28=2<26 \\ & \Rightarrow \quad 2\end{aligned}$ | $30-28-2=0$ |
| Total of sector X | ( i ) 352 | ( ii ) 172 | (iii) 80 | (iv) 31 | (v) 47 |

Note: In the "Upper bound" of the "Balances to which a zero interest rate is applied" on the table above, [b] and [d] correspond to [b] and [d] on the table in the Step 1. * is the part of [d] which exceeds [c] and ** corresponds to the column "Benchmark Balances * Benchmark Ratio" on the table in the Step 1.

Step 3: The balances are released in the following formats:

|  | Sector X |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Current <br> Account <br> Balances | To which: a <br> positive interest <br> rate is applied | To which: a zero <br> interest rate is <br> applied | To which: a <br> negative interest <br> rate is applied |
| Year Y <br> Month T | 250 | (i) (352) | (iii) (80) |  |
